Delilah Road Bridges

98323 98323

LOCATION/DESCRIPTION

Delilah Road over Water Mains to Delilah Road/Route 30 interchange, bridge replacements

This project will provide for the replacement of three structures on the existing alignment along with approach roadway profile improvements, an additional ramp from Route 30 southbound to Delilah Road westbound, and geometric improvements to Route 30 between mileposts 54 - 54.3. No additional lanes are proposed. The typical section for Delilah Road will include one 12-foot lane and one 10-foot shoulder in each direction

Ocean City Long Range Access Analysis

02314 02314

LOCATION/DESCRIPTION

Severe summer traffic congestion on routes leading to Ocean City (Route 9, Route 52, Garden State Parkway, CR 623, etc.) has been intensified by the closure of the Ocean City-Longport Bridge. A group of stakeholders has called for a study of these routes by the Department of Transportation and NJ Highway Authority.

South Jersey East-West Corridor Analysis

01382 01382

LOCATION/DESCRIPTION

Delaware Memorial Bridge to Atlantic City Expressway, corridor study

A corridor study is needed to identify existing and potential corridors for better east-west access through the region. The general limits of the study would be the Delaware Memorial Bridge to the Atlantic City Expressway. The study would revisit the South Jersey Highway Needs Study, which did not yield any implemented projects, and is explicitly called for in SJTPO's 2025 Regional Transportation Plan.

30 CR 575 Pomona Road

96022 96022

LOCATION/DESCRIPTION

Route 30 from Genoa Road to 1600 feet east of intersection with Pomona Road; Pomona Road beginning 25 feet north of existing NJ TRANSIT rail line to vicinity of Father Keis Drive, intersection improvements

FORMERLY KNOWN AS: ROUTE 30, MAYS LANDING-PORT REPUBLIC ROAD

Improvements will consist of widening on Route 30 eastbound and westbound to accommodate left turning lanes, shoulders and border areas on both approaches to Pomona Road. Pomona Road will be widened to accommodate shared left turning and through lanes, shoulders and border areas on both approaches to Route 30. All lane widths will be 12 feet and shoulders will be 10 feet on Route 30 and 6 feet on Pomona Road. A 4-foot concrete mountable curb median is also proposed for the purpose of controlling access in the vicinity of the intersection. Fire engine access to Pomona Volunteer Fire Company will be provided via a break in the median. Signalization and pedestrian crossing improvements will be included for both Route 30 and Pomona Road. Drainage improvements are proposed for both Route 30 and Pomona Road. This project will be designed to be bicycle/pedestrian compatible.

50	2E 3B, Tuckahoe River Bridge	242	242
----	------------------------------	-----	-----

LOCATION/DESCRIPTION

Vicinity of Marshall Avenue to vicinity of Main Street, bridge replacement and roadway improvements

The existing bascule bridge carries two 10-foot travel lanes and a 10-foot shoulder. The proposed replacement will be a fixed structure with a 9 foot, 6 inch vertical clearance from Mean High Water Level on the same alignment. The new structure will have two 12-foot travel lanes and 6-foot shoulders, as well as a 6-foot sidewalk on the northbound side of the bridge. A temporary structure will be constructed next to the existing structure to maintain traffic during construction. Additional roadway improvements will include signalizing the Route 50 and Route 49 intersection as well as providing a 15-foot through lane and 12-foot left-turn lane northbound and a 12-foot through lane and 15-foot right-turn lane southbound. The intersection of Route 50 and Tuckahoe-Mount Pleasant Road will be reconfigured to allow for one-way operation of Tuckahoe-Mount Pleasant Road only. Traffic wishing to access Route 50 will be able to gain safer access to the highway through the reconstructed Marshall Avenue and Kendall Lane intersections. This project will be designed to be bicycle/pedestrian compatible.
